UN Merchants of Despair and Peddlers of Panic
Today’s Papal Conference Goal:

The desired outcome is a joint statement on the moral and religious imperative of the sustainable development, highlighting the intrinsic connection between respect for the environment and respect for people—especially the poor, victims of human trafficking and modern slavery.”
“The sexual exploitation of women and children...must be recognized as an intrinsic violation of human dignity and rights, and to reduce the rich mystery of human sexuality to a mere commodity.”

St. John Paul II in 2002
Apocalyptic Predictions to Promote Abortion and other child prevention measures.
Panic Peddler in Chief

“We are bursting at the seams.”

j. Sachs, 2007
“The battle to feed all of humanity is over. In the 1970s, hundreds of millions of people will starve to death in spite of any crash programs embarked upon now. Nothing can prevent a substantial increase in the world death rate.”

“From the moment of his existence, a human being must be recognized as having the rights of a person--among which is the inviolable right of every innocent being to life.”

CCC2270
‘The foundation of Catholic Social Teaching is *first and foremost* that human life is sacred and the dignity of the human person is the foundation of a moral vision for society.’ St. John Paul II
“The inalienable rights of the person must be recognized and respected by civil society and the political authority.”

CCC2273
“The Legality of abortion also plays an evident role as well...the data suggests that those countries with legalized abortion tend to have lower observed fertility rates than those where abortion is illegal.”

J. Sachs
Sachs’ Commandments for Sustainable Development
Reduce the poor’s fertility rate by imposing UN climate change edicts.
Population dynamics are very important for Sustainable Development. The chances for sustainable development will be very different if the population reaches 10.8 billion at the end of the century or instead peaks by 2050 and declines to 6.8 billion.

Sachs, 2015
Sachs’ 7th Commandment for Sustainable Development
“The World especially the donor countries in their financing and their implementation should guarantee access to sexual and reproductive health services. Poor women need full-funding of family planning services, contraception, emergency ob care...by the year 2015 partly through the global health fund & UNFPA.”

J. Sachs 2015
There is an undeniable deep moral and ethical conflict between the UN, Sachs, and the Vatican.
“As households are able to obtain modern health services, including family planning and modern contraceptives, they are able to follow through on their changing desires about family size.” J. Sachs
“The greatest destroyer of peace is abortion. And we who are standing here—our parents wanted us. Many people are very very concerned with the children in India and Africa who die of malnutrition, of hunger and so on, but millions are dying deliberately by the will of the mother. And this is the greatest destroyer of peace today.”
Sachs’ 3 Child Policy

Nigeria
“I am really scared about population explosion in Nigeria. It is not healthy. Nigeria should work towards attaining a maximum of 3 children per family.”  Sachs, 2015
